First Destination Report

Class of 2011
Each year The Office of Career Development conducts an annual follow up study on the graduating class from the prior year. In order to ensure and provide reliable statistics the office has taken great care to establish the following protocols and timelines for the collection and analysis of data.

**Spring (April) Senior Salute:**
Survey seniors one month prior to graduation regarding their employment/graduate school status

**November:**
Mail employment survey to May/December graduates who could not report at Senior Salute

**March:**
Send names of graduates who did not respond to survey letter to faculty (faculty may be aware of employment/graduate school status or contact information)

**April:**
Begin Internet survey and phone canvass for remaining unresponsive graduates

**April/May:**
Upon reaching a minimum response rate of 70% begin compiling statistical report

**May:**
Present report to president for approval and release to:
- board of trustees
- administrative council
- enrollment management
- publish on career website

This report contains a summary of statistics, actual distribution of majors, employment information, graduate/professional school information, and state by state location of graduates.

As always, it is our hope that this report will serve as a useful resource for administration, faculty, staff, students, parents, alumni and prospective University of Mount Union students and their families.
