

Dear Friends,

We are proud to present [Turning Green Classroom](https://turninggreenclassroom.org), 30 days of eco learning for students and families with simple, fun, impactful daily activities. Become informed, inspired and mobilized throughout April, as we innovate, co-create and rise to heal and sustain people and planet. Even in the face of hardship and uncertainty, we can all connect to take action #TogetherApart and honor the 50th Earth Day.

Please log on today and all month to learn about daily themes. Share with friends, teachers, colleagues, parents, any and all who may be interested in joining us at [turninggreenclassroom.org](https://turninggreenclassroom.org). In unprecedented times, we are proud to continue to show up with and for each other and the earth.

With hope,

The Turning Green Team
