

Earth Optimism: *2020 Digital Summit*

As a public health precaution, the Smithsonian is postponing the Washington, D.C.-based summit to a later date. Instead, on the 50th anniversary of Earth Day 2020 (April 22nd), Earth Optimism goes digital with an event that will showcase stories of both small and large-scale actions that frame the conversation and demonstrate that success is possible. The same speakers, the same content -- digitally!

Stay tuned for more information: <https://earthoptimism.si.edu/2020-summit/>
