Recommended Resources

In addition to the research resources listed below, Mount Union offers a number of [recommended resources](#) that will have additional information in your field of study.

Medical Resources

[3D4 Medical](#)

Students will need to complete the registration process with their @mountunion.edu email address and then redeem the activation code to successfully unlock Student Plus. Attached is an instructional [PDF](#) that will help with the download/registration/redeem process.

[AccessMedicine](#)

AccessMedicine from McGraw-Hill Medical is a comprehensive online medical resource that provides authoritative, trusted, and continuously updated content for residents, nurse practitioners, and physician assistants with instant access to videos, self-assessment, and leading medical textbooks that facilitate decision-making at the point-of-care.

[AccessPhysiotherapy](#)

AccessPhysiotherapy from McGraw-Hill Medical is devoted exclusively to the study, instruction, and practice of physical therapy – with groundbreaking content for today's PT. Updated regularly, this comprehensive online physiotherapy resource integrates leading physical therapy textbooks, procedure and exercise videos, image galleries, self-assessment tools, and a unique cadaver dissection tool.

[Alt HealthWatch](#)

This database focuses on the many perspectives of complementary, holistic and integrated approaches to health care and wellness. It offers libraries full text articles for more than 180 international, and often peer-reviewed journals and reports. In addition, there are hundreds of pamphlets, booklets, special reports, original research and book excerpts. Alt HealthWatch provides in-depth coverage across the full spectrum of subject areas covered by complementary and alternative medicine. This database features indexing and abstracts going back as far as 1984, and full text going back as far as 1990.

[Biosis Previews 1969 – Present \(Web of Science/Knowledge\)](#)

An expansive index to life sciences and biomedical research from journals, meetings, books, and patents. The database covers pre-clinical and experimental research, methods and instrumentation, animal studies, and more.

[CINAHL Plus w/ Full Text](#)

CINAHL Plus® with Full Text is a robust collection of full text for nursing & allied health journals, providing full text for more than 770 journals indexed in CINAHL®. This authoritative file contains full text for many of the most used journals in the CINAHL index, with no embargo. CINAHL Plus with Full Text is the core research tool for all areas of nursing and allied health literature. Full text coverage dates back to 1937.

[Centers for Disease Control and Prevention \(CDC\)](#)

Scholarly information on medical reports, tables, or statistics.

[CDC Stacks](#)

CDC Stacks searching similar to a library catalog (journals articles, podcasts, etc.)

[CDC-TV](#)

This resource encompasses videos on a variety of health issues.

[The Cochrane Library](#)

The Cochrane Library is a collection of databases that contain different types of high-quality, independent evidence to inform healthcare decision-making.

It includes, the Cochrane Database of Systematic Reviews (CDSR) is the leading journal and database for systematic reviews in health care, the [Cochrane Central Register of Controlled Trials \(CENTRAL\)](#) is a highly concentrated source of reports of randomized and quasi-randomized controlled trials and the [Cochrane Clinical Answers](#) (CCAs) provide a readable, digestible, clinically-focused entry point to rigorous research from Cochrane Reviews. They are designed to be actionable and to inform point-of-care decision-making.

The Cochrane Library is available in a [Spanish language version](#).

[Consumer Health Complete](#)

Consumer Health Complete is a comprehensive resource for consumer-oriented health content with journals and ebook sources. It is designed to support patients' information needs and foster an overall understanding of health-related topics. Consumer Health Complete provides content covering all areas of health and wellness from mainstream medicine to the many perspectives of complementary, holistic and integrated medicine. In addition, Consumer Health Complete includes the Clinical Reference System and the Lexi-PAL Drug Guide, which provides access to up-to-date, concise and clinically relevant drug monographs. The database is updated on a weekly basis.

[F.A. Davis PT Collection](#)

The F.A. Davis PT Collection is a comprehensive digital textbook platform for educators and physical therapy students.

[Health Source: Consumer Edition](#)

This database is the richest collection of consumer health information available to libraries worldwide, providing information on many health topics including the medical sciences, food sciences and nutrition, childcare, sports medicine and general health. Health Source: Consumer Edition provides access to nearly 80 full text, consumer health magazines.

[Health Source: Nursing/Academic Edition](#)

This database provides nearly 550 scholarly full text journals focusing on many medical disciplines. Health Source: Nursing/Academic Edition also features the AHFS Consumer Medication Information, which covers 1,300 generic drug patient education sheets with more than 4,700 brand names.

[ICE Learning Center](#)

This source provides innovative streaming video collections, of real patients and therapists, created to inspire clinical excellence for faculty, students and clinicians in occupational therapy and physical therapy programs. Faculty can access their additional resources [here](#).

[International Statistical Classification of Diseases and Related Health Problems 11th Revision](#)

ICD is the foundation for the identification of health trends and statistics globally, and the international standard for reporting diseases and health conditions. It is the diagnostic classification standard for all clinical and research purposes. ICD defines the

universe of diseases, disorders, injuries and other related health conditions, listed in a comprehensive, hierarchical fashion that allows for:

- easy storage, retrieval and analysis of health information for evidenced-based decision-making;
- sharing and comparing health information between hospitals, regions, settings and countries; and
- data comparisons in the same location across different time periods.

Uses include monitoring of the incidence and prevalence of diseases, observing reimbursements and resource allocation trends, and keeping track of safety and quality guidelines. They also include the counting of deaths as well as diseases, injuries, symptoms, reasons for encounter, factors that influence health status, and external causes of disease.

[Journal of Virology](#)

[MedicLatina](#)

MedicLatina is a unique collection of medical research and investigatory journals from renowned Latin American and Spanish publishers. This Spanish language database contains full text for 130 peer-reviewed medical journals in native Spanish.

[MEDLINE w/ Full Text](#)

MEDLINE with Full Text provides the authoritative medical information on medicine, nursing, dentistry, veterinary medicine, the health care system, and pre-clinical sciences found on MEDLINE, plus the database provides full text for more than 1,470 journals indexed in MEDLINE. Of those, nearly 1,450 have cover-to-cover indexing in MEDLINE. And of those, 558 are not found with full text in any version of Academic Search, Health Source or Biomedical Reference Collection.

This source provides health topics, drugs and supplements, a medical encyclopedia, news, and directories from the National Library of Medicine and NIH.

[Merck Manuals](#)

Merck Manuals is one of the most widely used comprehensive medical resources for professionals and consumers. As the Manual evolved, it continually expanded the reach and depth of its offerings to reflect the mission of providing the best medical information of the day to a wide cross-section of users, including medical professionals and students, veterinarians and veterinary students, and consumers.

[Natural and Alternative Treatments](#)

This database focuses on alternative and holistic approaches to healthcare and wellness. Designed for consumer health researchers and clinicians, Natural & Alternative Treatments is an essential tool that satisfies an ever-growing demand for accurate, unbiased natural health information.

[Nursing and Allied Health Resources Wiki](#)

This is the Nursing and Allied Health Resources wiki, a collaborative project by members of the [Nursing and Allied Health Resource Section](#) of the [Medical Library Association](#). Use the left-hand navigation to browse the content. The content includes resources for nurses and other health professionals including databases, electronic books, electronic journals, and Web sites related to nursing and allied health disciplines. Most resources are freely available, others may be free to you via your health science or academic library.

[Nursing Assessment in Video](#)

Nursing Assessment in Video is an online database that provides access to the best-selling assessment series of training videos from Medcom Inc., acclaimed provider of nursing education programs worldwide. Each title features leading industry experts providing hands-on demonstrations and step-by-step instructions in key assessment areas. Users can depend on the collection to deliver the most accurate, up-to-date information available.

[Nursing Education in Video](#)

Nursing Education in Video is a collection of videos created specifically for the education and training of nurses, nursing assistants, and other healthcare workers. Created with the guidance of the Medcom-Trainex advisory board, and are regularly reviewed for accuracy, currency, and compliance with US Federal regulations from agencies such as OSHA and CMS.

[NursingWorld Research Toolkit \(ANA\)](#)

The American Nurses Association (ANA) is the premier organization representing the interests of the nation's 4 million registered nurses. ANA is at the forefront of improving the quality of health care for all. Founded in 1896, and with members in all 50 states and U.S. territories, ANA is the strongest voice for the profession.

[OVID Nursing Journals](#)

Ovid Nursing Journals includes 25 premier nursing journals published by some of the world's leading sources of nursing information, available in a cost-effective, convenient package.

This collection has been carefully designed to bring you only the finest nursing journals available, delivered via Ovid, a unique search and discovery platform that provides unparalleled search and linking tools for the expert user to the novice.

[PA Exam Prep](#)

To access Physician's Assistant Exam Prep, you will need to use your Mount Union email address and create your own password to access this database. Coverage of all content areas (organ system and task area category) listed in the latest PANCE blueprint, including the new "Professional Practice" category. A full-length 300-question

PANCE mock examination mapped to the latest PANCE blueprint in terms of content and category weight. Practice questions in simulation (exam-interface) mode for an even more realistic experience to ensure you are fully prepared for exam day.

[PDR Physician's Desk Reference](#)

PDR delivers innovative health knowledge products and services that support prescribing decisions and patient adherence to improve health. As a leading provider of behavior-based prescription management programs, PDR provides event-driven and clinically relevant healthcare messaging through its patented process that improves patient compliance and outcomes, while preserving privacy. This network is made up of e-prescribing, electronic medical record (EMR), and electronic health record (EHR) applications, chain and independent pharmacies, and sponsors of healthcare-related education such as pharmaceutical manufacturers, health plans, payers, and pharmacy benefit managers. The Physicians' Desk Reference® suite of services provides healthcare professionals multichannel access to important drug information: the PDR®, the most recognized drug information reference available in the U.S.; interactive drug information services for EHR/EMR systems; digital communication services; PDR.net®; and mobilePDR®.

[PEDro](#)

PEDro is a [bibliographic database](#) containing [randomized trials](#), [clinical practice guidelines](#) and [systematic reviews](#) in the field of [physical therapy](#).

[Physical Therapy Video Collection by Films on Demand](#)

This collection brings together 250+ videos from such trusted producers as Wolters Kluwer Health, Castalia Media, Healthy Learning, U.S. Kinesiology Training Institute, and PESI, Inc., that will help physical therapy students learn and practice crucial techniques in ways textbooks alone cannot. Aspiring physical therapists can find short instructional clips that cover a wide range of physical therapy interventions and examinations—from stretching techniques to wrapping a shin splint—as well as seminars from top trainers and in-depth documentaries on the history of physical and occupational therapy, massage, and biomechanics.

PubMed is a service of the U.S. National Library of Medicine that includes over 16 million citations from MEDLINE and other life science journals for biomedical articles back to the 1950s.

[Sport Discus w/ Full Text](#)

SPORTDiscus with Full text is the definitive database for sports and sports medicine research. Providing hundreds of full-text sports medicine journals, it is an essential tool for health professionals and researchers studying fitness, health and sports. Subjects covered include nutrition, physical therapy, occupational health, exercise physiology and kinesiology.

[Sports Medicine and Exercise Science in Video](#)

Sports Medicine and Exercise Science in Video is a collection for the areas of fitness and health assessment, disease management, injury treatment, nutrition, medical fitness, sport science, work-site wellness, exercise adherence, and much more. The collection features an array of internationally renowned physicians, exercise scientists, certified athletic trainers, physical therapists, registered dietitians, sport psychologists, personal trainers, and health/wellness experts who share information, ideas, and insights on the principles, techniques, and modalities of modern exercise science and sports medicine.

[UpToDate](#)

UpToDate is a resource used by practicing medical personnel in the field. It contains the most recent medical information including Practice Changing Updates, Lab Interpretation, Drug Information, Patient Education, Topics by Specialty and Authors and Editors.

To Access UpToDate:

Users need to create an account when using this resource. Please use your Mount Union email address. Once the account has been created, please use that login information for future access. [Click here](#) for mobile access. When off-campus, you will be prompted to authenticate using your last name and the 14 digit barcode (beginning 270480...) from your Purple Plu\$ Card. Once you create an account, you are required to access this resource from the Library website a minimum of every 90 dates to confirm you are still a valid user.

This powerful database requires individual login and passwords for users. Users who have not searched the database for an extended period of time will be prompted to reset their password from the UptoDate login page. Should multiple attempts to login be made without resetting the password, UptoDate will block access. This block can be overcome by 1) clearing your browser's cache or 2) using another browser. This will enable the user to get access to reset the password. Please contact the library if you are having difficulty with your login.
