

# Learning Style Assessment

- This quick 20 question assessment can help you identify your strongest learning style.
  - <http://www.educationplanner.org/students/self-assessments/learning-styles-quiz.shtml>
- It will identify you as being one of three types of learners, and then will present you with ways of using your style to your advantage.
- It will also let you know how you ranked in the two other styles, with the option of looking at the recommendations for those types as well.
- The three learning styles:
  - Auditory: Learn best by hearing and listening.
  - Visual: Learn best by reading words or seeing pictures.
  - Tactile: Learn best by touching and doing.
- Think about how you can use this knowledge to learn better in your classes, and improve your study strategies for tests and exams!
