Helping your Student Settle into College Life

As parents, we worry about our high school senior's transition to college. We know that this is a big step and we hope that both our student, and we, are prepared. But even after your student has made those important first transitions to college, there are more changes ahead.

Each year of college brings its own phase of development, and the phenomenon of the things like the "sophomore slump" is very real for many students. Parents may be less comfortable with knowing what conversations they should be having with their student, but the work isn't done. [Read more](#) from the College Parent Central website about how you can help your student settle into their major and long term goals.

Double Your Impact on Raiders Give

Mount Union's second annual day of giving, Raiders Give, is just around the corner! Join fellow parents, alumni, and friends April 4, and make a big impact on current students in just 24 hours.

If **750** donors make gifts to The Mount Union Fund on Raiders Give, several Trustees will match every donation up to \$100,000. That's double the impact of your support.

But that's not all! Brad '84 and Stephanie Carman, parents of Hayden Carman '22, will give an additional \$2,500 if 55 or more parents or family members

participate.

Learn more about Raiders Give and how you can make a difference at raidersgive.mountunion.edu.
